

TIPS FOR WRITING RESEARCH PROPOSALS & SECURING FUNDING FOR COLLABORATIVE ALCOHOL RESEARCH

ICARA ONLINE WORKSHOP
9 APRIL 2025

- 1 **Align alcohol research with real-world priorities and local contexts including broader health and policy agendas**
- 2 **Understand the funding landscape by tailoring research proposals to funders' priorities and language**
- 3 **Anticipate and develop plans to address ethical and regulatory challenges**
- 4 **Include sustainability and long-term impact into alcohol research projects**
- 5 **Address power imbalances in research collaborations and establish clear roles, responsibilities, and governance structures in multi-country research projects**
- 6 **Ensure transparency and equity in resource allocation between Global North and South partners**
- 7 **Build up a track record by starting with smaller grants and gradually move up to larger funding opportunities**
- 8 **Do not underestimate how long it takes to write a strong and fundable proposal**
- 9 **Forge strong collaborative partnerships with shared values**
